Humanitarian consequences of nuclear weapons

The General Assembly,

Recalling its resolutions 70/47 of 7 December 2015 and 71/46 of 5 December 2016,

Reiterating the deep concern about the catastrophic consequences of nuclear weapons,

Stressing that the immense and uncontrollable destructive capability and indiscriminate nature of nuclear weapons cause unacceptable humanitarian consequences, as has been demonstrated through their past use and testing,

Recalling that concern about the humanitarian consequences of nuclear weapons has been reflected in numerous United Nations resolutions, including the first resolution adopted by the General Assembly, on 24 January 1946,

Recalling also that at the first special session of the General Assembly devoted to disarmament, in 1978, the Assembly stressed that nuclear weapons posed the greatest danger to mankind and to the survival of civilization,[1]

Welcoming the renewed interest and resolve of the international community, together with the International Committee of the Red Cross and international humanitarian organizations, to address the catastrophic consequences of nuclear weapons,

Recalling that the 2010 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons expressed deep concern at the catastrophic humanitarian consequences of any use of nuclear weapons,[2]

Noting the resolution of 26 November 2011 of the Council of Delegates of the International Red Cross and Red Crescent Movement entitled "Working towards the elimination of nuclear weapons",

Recalling the joint statements on the humanitarian consequences of nuclear weapons delivered to the General Assembly and during the 2010-2015 cycle of the review of the Treaty on the Non-Proliferation of Nuclear Weapons,[3]

Welcoming the facts-based discussions on the effects of a nuclear weapon detonation that were held at the conferences on the humanitarian impact of nuclear weapons, convened by Norway, on 4 and 5 March 2013, Mexico, on 13 and 14 February 2014, and Austria, on 8 and 9 December 2014,

Cognizant that a key message from experts and international organizations at those conferences was that no State or international body could address the immediate humanitarian emergency caused by a nuclear weapon detonation or provide adequate assistance to victims,

Firmly believing that it is in the interest of all States to engage in discussions on the humanitarian consequences of nuclear weapons with the aim of further broadening and deepening the understanding of this matter, and welcoming civil society's ongoing engagement,

Reaffirming the role of civil society, in partnership with Governments, in raising awareness about the unacceptable humanitarian consequences of nuclear weapons,

Emphasizing that the catastrophic consequences of nuclear weapons affect not only Governments but each and every citizen of our interconnected world and have deep implications for human survival, for the environment, for socioeconomic development, for our economies and for the health of future generations,

1. *Stresses* that it is in the interest of the very survival of humanity that nuclear weapons never be used again, under any circumstances;

2. *Emphasizes* that the only way to guarantee that nuclear weapons will never be used again is their total elimination;

3. *Stresses* that the catastrophic effects of a nuclear weapon detonation, whether by accident, miscalculation or design, cannot be adequately addressed;

4. *Expresses its firm belief* that awareness of the catastrophic consequences of nuclear weapons must underpin all approaches and efforts towards nuclear disarmament;

5. *Calls upon* all States, in their shared responsibility, to prevent the use of nuclear weapons, to prevent their vertical and horizontal proliferation and to achieve nuclear disarmament;

6. *Urges* States to exert all efforts to totally eliminate the threat of these weapons of mass destruction;

Taking forward multilateral nuclear disarmament negotiations

The General Assembly,

Recalling its resolutions 67/56 of 3 December 2012, 68/46 of 5 December 2013, 69/41 of 2 December 2014, 70/33 of 7 December 2015 and 71/258 of 23 December 2016 on taking forward multilateral nuclear disarmament negotiations for the achievement and maintenance of a world without nuclear weapons,

Deeply concerned about the catastrophic humanitarian consequences of any use of nuclear weapons,

Deeply concerned also about the risks related to the existence of nuclear weapons,

Recalling the Declaration of the Tenth Special Session of the General Assembly, the first special session devoted to disarmament,[1] in which it is stated, inter alia, that all the peoples of the world have a vital interest in the success of disarmament negotiations, and that all States have the right to participate in disarmament negotiations,

Recalling the United Nations Millennium Declaration,[3] in which it is stated, inter alia, that responsibility for managing worldwide economic and social development, as well as threats to international peace and security, must be shared among the nations of the world and should be exercised multilaterally and that, as the most universal and most representative organization in the world, the United Nations must play the central role,

Welcoming the efforts by Member States to secure progress in multilateral disarmament and the support of the Secretary-General for such efforts, and recalling in this regard the Secretary-General's five-point proposal on nuclear disarmament,

Recalling that the Treaty on the Non-Proliferation of Nuclear Weapons,[4] which serves as the cornerstone of the nuclear non-proliferation and disarmament regime, was negotiated considering the devastation that would be visited upon all mankind by a nuclear war and the consequent need to make every effort to avert the danger of such a war and to take measures to safeguard the security of peoples,

Stressing that the only way to guarantee that nuclear weapons are never used again is through their complete elimination and that a legally binding prohibition of nuclear weapons constitutes an essential contribution towards that end, as well as towards the implementation of article VI of the Treaty on the Non-Proliferation of Nuclear Weapons,

Recalling the obligations of States parties to the Treaty on the Non-Proliferation of Nuclear Weapons and their commitments as reflected in the outcome documents of the 1995 Review and Extension Conference of the Parties to the Treaty,[5] and of the 2000[6] and the 2010[7] Review Conferences of the Parties to the Treaty,

Stressing the importance of the full and effective implementation by the States parties to the Treaty of the various commitments made at the review conferences,

Reaffirming the absolute validity of multilateral diplomacy in the field of disarmament and non-proliferation, and determined to promote multilateralism as an essential way to develop arms regulation and disarmament negotiations,

Mindful of the obligation of States to engage in negotiations in good faith on effective measures towards nuclear disarmament,

Recognizing that the current international climate makes increased political attention to disarmament and non-proliferation issues, the promotion of multilateral disarmament and the achievement of a world without nuclear weapons all the more urgent,

Welcoming the high-level meeting of the General Assembly on nuclear disarmament, held on 26 September 2013 pursuant to its resolution 67/39 of 3 December 2012, which highlighted the wish of the international community for progress in this field, and noting its resolution 68/32 of 5 December 2013 as a follow-up to this meeting,

9. *Reaffirms* the urgency of securing further substantive progress in multilateral nuclear disarmament negotiations;

10. *Recommends* that, consistent with the Treaty on the Prohibition of Nuclear Weapons, additional efforts can and should be pursued to elaborate concrete effective legal measures, legal provisions and norms that will need to be concluded to attain and maintain a world without nuclear weapons, and considers that the pursuit of any such measures, provisions and norms should complement and strengthen the nuclear disarmament and non-proliferation regime, including the three pillars of the Treaty on the Non-Proliferation of Nuclear Weapons;[4]

Determined to abide strictly by the relevant provisions of the Charter of the United Nations on the non-use of force or threat of force,

Recognizing that the independence, territorial integrity and sovereignty of non-nuclear-weapon States need to be safeguarded against the use or threat of use of force, including the use or threat of use of nuclear weapons,

Recognizing that effective measures and arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons can contribute positively to the prevention of the spread of nuclear weapons,

Bearing in mind paragraph 59 of the Final Document of the Tenth Special Session of the General Assembly, the first special session devoted to disarmament,[1] in which it urged the nuclear-weapon States to pursue efforts to conclude, as appropriate, effective arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons, and desirous of promoting the implementation of the relevant provisions of the Final Document,

Recalling also paragraph 12 of the Declaration of the 1980s as the Second Disarmament Decade, contained in the annex to its resolution 35/46 of 3 December 1980, in which it is stated, inter alia, that all efforts should be exerted by the Committee on Disarmament urgently to negotiate with a view to reaching agreement on effective international arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons,

Noting the in-depth negotiations undertaken in the Conference on Disarmament and its Ad Hoc Committee on Effective International Arrangements to Assure Non-Nuclear-Weapon States against the Use or Threat of Use of Nuclear Weapons,[6] with a view to reaching agreement on this question,

Taking note of the proposals submitted under the item in the Conference on Disarmament, including the drafts of an international convention,

Taking note also of the relevant decision of the Thirteenth Conference of Heads of State or Government of Non-Aligned Countries, held in Kuala Lumpur on 24 and 25 February 2003,[7] which was reiterated at the Seventeenth Conference of Heads of State or Government of Non-Aligned Countries, held on Margarita Island, Bolivarian Republic of Venezuela, from 13 to 18 September 2016, as well as the relevant recommendations of the Organization of Islamic Cooperation,

Taking note further of the unilateral declarations made by all the nuclear-weapon States on their policies of non-use or non-threat of use of nuclear weapons against the non-nuclear-weapon States,

Noting the support expressed in the Conference on Disarmament and in the General Assembly for the elaboration of an international convention to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons, as well as the difficulties pointed out in evolving a common approach acceptable to all,

Confidence-building measures in the regional and subregional context

The General Assembly,

Guided by the purposes and principles enshrined in the Charter of the United Nations,

Recalling its resolutions 58/43 of 8 December 2003, 59/87 of 3 December 2004, 60/64 of 8 December 2005, 61/81 of 6 December 2006, 62/45 of 5 December 2007, 63/45 of 2 December 2008, 64/43 of 2 December 2009, 65/47 of 8 December 2010, 66/38 of 2 December 2011, 67/61 of 3 December 2012, 68/55 of 5 December 2013, 69/46 of 2 December 2014, 70/42 of 7 December 2015 and 71/39 of 5 December 2016 on confidence-building measures in the regional and subregional context,

Recalling also its resolution 57/337 of 3 July 2003 on the prevention of armed conflict, in which the General Assembly calls upon Member States to settle their disputes by peaceful means, as set out in Chapter VI of the Charter, inter alia, by any procedures adopted by the parties,

Recalling further the resolutions and guidelines adopted by consensus by the General Assembly and the Disarmament Commission relating to confidence-building measures and their implementation at the global, regional and subregional levels,

Considering the importance and effectiveness of confidence-building measures taken at the initiative and with the agreement of all States concerned, and taking into account the specific characteristics of each region, since such measures can contribute to regional stability,

Convinced that resources released by disarmament, including regional disarmament, can be devoted to economic and social development and to the

Recognizing the need for meaningful dialogue among States concerned to avert conflict,

Welcoming the peace processes already initiated by States concerned to resolve their disputes through peaceful means bilaterally or through mediation, inter alia, by third parties, regional organizations or the United Nations,

Recognizing that States in some regions have already taken steps towards confidence-building measures at the bilateral, subregional and regional levels in the political and military fields, including arms control and disarmament, and noting that such confidence-building measures have improved peace and security in those regions and contributed to progress in the socioeconomic conditions of their people,

Concerned that the continuation of disputes among States, particularly in the absence of an effective mechanism to resolve them through peaceful means, may contribute to the arms race and endanger the maintenance of international peace and security and the efforts of the international community to promote arms control and disarmament,

1. *Calls upon* Member States to refrain from the use or threat of use of force in accordance with the purposes and principles of the Charter of the United Nations;

2. *Reaffirms its commitment* to the peaceful settlement of disputes under Chapter VI of the Charter, in particular Article 33, which provides for a solution by negotiation, enquiry, mediation, conciliation, arbitration, judicial settlement, resort to regional agencies or arrangements or other peaceful means chosen by the parties;

3. *Reaffirms* the ways and means regarding confidence- and security-building measures set out in the report of the Disarmament Commission on its 1993 session;[1]

4. *Calls upon* Member States to pursue these ways and means through sustained consultations and dialogue, while at the same time avoiding actions that may hinder or impair such a dialogue;

5. *Urges* States to comply strictly with all bilateral, regional and international agreements, including arms control and disarmament agreements, to which they are party;

6. *Emphasizes* that the objective of confidence-building measures should be to help to strengthen international peace and security and to be consistent with the principle of undiminished security at the lowest level of armaments;

Review of the implementation of the recommendations and decisions adopted by the General Assembly at its tenth special session: report of the Conference on Disarmament

Spain: draft resolution

Report of the Conference on Disarmament

The General Assembly,

Having considered the report of the Conference on Disarmament,[1]

Convinced that the Conference on Disarmament, as the single multilateral disarmament negotiating forum of the international community, has the primary role in substantive negotiations on priority questions of disarmament,

Recognizing the message of the Secretary-General of the United Nations, as well as the addresses of Ministers for Foreign Affairs and other high-level officials in the Conference on Disarmament, as expressions of support and concern for the endeavours of the Conference and as calls for the Conference to immediately commence negotiations to advance disarmament goals through the adoption of a balanced and comprehensive programme of work,

Recognizing also the need to conduct multilateral negotiations with the aim of reaching agreement on concrete issues, and considering that the present international climate should give additional impetus to multilateral negotiations,

Noting with renewed concern that, despite the intensive efforts by States members and Presidents of the Conference on Disarmament at its 2017 session to reach consensus on a programme of work on the basis of relevant proposals and suggestions, the Conference did not succeed in commencing its substantive work, including negotiations, as called for by the General Assembly in its resolution 71/81 of 5 December 2016, or in agreeing on and implementing a programme of work,

Recalling, in this respect, that the Conference on Disarmament has a number of urgent and important issues for negotiation to achieve disarmament goals,

Welcoming the overwhelming call for greater flexibility with respect to commencing the substantive work of the Conference on Disarmament without further delay, on the basis of a balanced and comprehensive programme of work,

Appreciating the continued cooperation among the States members of the Conference on Disarmament as well as the six successive Presidents of the Conference at its 2017 session,

Noting with appreciation the significant contributions made at the 2017 session to promote substantive discussions on issues on the agenda, including the informal discussions held pursuant to the decision adopted on 17 February 2017,[2] and noting the discussions on the functioning of the Conference on Disarmament, as well as the discussions held on other issues that could also be relevant to the current international security environment,

Emphasizing the importance of the United Nations Institute for Disarmament Research, as a stand-alone, autonomous institution, and the contribution that its research makes,

Recognizing the importance of engagement between civil society and the Conference on Disarmament according to decisions taken by the Conference,

Stressing the urgent need for the Conference on Disarmament to commence its substantive work at the beginning of its 2018 session,

1. *Reaffirms* the role of the Conference on Disarmament as the single multilateral disarmament negotiating forum of the international community;

Countering the threat posed by improvised explosive devices

The General Assembly,

Recalling its resolutions 70/46 of 7 December 2015 and 71/72 of 5 December 2016,

Expressing grave concern over the devastation caused by the increasing use of improvised explosive devices by illegal armed groups, terrorists and other unauthorized recipients,[1] which has affected a large number of countries and has resulted in thousands of casualties, both civilian and military, and, in this regard, stressing the need for all actors to comply with applicable international law at all times,

Expressing profound concern at the indiscriminate use and effects of improvised explosive devices and at the increasing impact of such attacks on civilian populations worldwide, in particular through the perpetration of terrorist acts, noting the need for a comprehensive approach to addressing this concern,

Expressing concern at the serious harm that such improvised explosive device attacks have caused to United Nations staff and peacekeepers, and to humanitarian workers, by threatening their lives, increasing the cost of their activities, limiting their freedom of movement and affecting their ability to effectively deliver on their mandates,

Expressing concern also about the negative impact of these attacks on socioeconomic development, infrastructure and freedom of movement, and on the security and stability of States, and thus underlining the need to address this issue in order to achieve relevant goals and targets under the 2030 Agenda for Sustainable

Development,[2] in particular target 16.1 on significantly reducing all forms of violence and related death rates everywhere,

Urging Member States to ensure that any measures taken or means employed to implement the present resolution comply with international law, in particular the Charter of the United Nations, applicable international humanitarian law and human rights law,

Recognizing the importance of the full involvement of, and equal opportunities for, the participation of both women and men in countering the threat posed by improvised explosive devices,

Recognizing also that the wide spectrum of materials that can be used for the manufacture of improvised explosive devices, including those sourced from the military and civilian industry, contributes to their diverse nature and their deployment methods, which thus requires an appropriate approach to the formulation of measures to counter them,

Noting that the impact of improvised explosive devices spans a wide array of policy areas and that, owing to the extent of the cross-cutting nature of the issue, a whole-of-government approach focusing on the capacity of Governments to effectively bring together several policy strands for comprehensive action is essential,

Underlining the important role that States can play in raising awareness among private sector and other entities about the possible theft, diversion and misuse of their products to make improvised explosive devices, with a view to enabling those entities to develop effective strategies to counter the threat of improvised explosive devices,[3] including to prevent the adverse impact of the diversion of materials and the potential loss of revenue and risk to reputation, either in a partnership with governmental authorities, or through business-to-business processes or activities,

Noting existing industry-led initiatives that seek to increase industry oversight and accountability along the supply chain for precursor components, and encouraging States to engage, as appropriate, with private sector industry actors in supporting such initiatives,

Noting also the contribution of, good governance, the promotion of human rights, the rule of law and sustained and inclusive socioeconomic growth, including through effective measures and mechanisms for persons belonging to vulnerable groups, as important elements in comprehensively addressing the issue of improvised explosive devices, in particular in post-conflict situations,

Stressing the paramount need to prevent illegal armed groups, terrorists and other unauthorized recipients from, and identify the networks that support them in, obtaining, handling, financing, storing, using or seeking access to all types of explosives, whether military or civilian, as well as other military or civilian materials and components that can be used to manufacture improvised explosive devices, including detonators, detonating cords and chemical components, while at the same time avoiding any undue restrictions on the legitimate use of those materials,

Recalling, in this context, relevant resolutions on the prevention of acquisition of weapons by terrorists, including improvised explosive device components, and

their transfer to and between terrorists, associated groups and other illegal armed groups and criminals,[4]

Stressing the importance of effectively securing conventional ammunition stockpiles in order to mitigate the risk of their diversion to illicit use as materials for improvised explosive devices,

Stressing also the importance of engagement by all Member States in a comprehensive and coordinated community of action to counter the global threat posed by improvised explosive devices in the hands of illegal armed groups, terrorists and other unauthorized recipients, taking into account national capacities,

Noting that, at the global level, organizations across many sectors have expertise that can contribute to a useful set of measures for the mitigation of improvised explosive devices, and noting also the value of considered and coordinated efforts by various stakeholders, including intergovernmental and regional organizations and industry associations, with a view to investing effectively in coordination and information exchange,

Noting also the discussions on the issue of improvised explosive devices by the informal group of experts under the Protocol on Prohibitions or Restrictions on the Use of Mines, Booby Traps and Other Devices as amended on 3 May 1996 (Amended Protocol II)[5] and on the technical annex to the Protocol on Explosive Remnants of War (Protocol V)[6] to the Convention on Prohibitions or Restrictions on the Use of Certain Conventional Weapons Which May Be Deemed to Be Excessively Injurious or to Have Indiscriminate Effects,[7] and noting further that, in the view of its States parties, improvised anti-personnel mines also fall within the scope of the Convention on the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-personnel Mines and on Their Destruction,[8]

Noting further the multilateral efforts to counter improvised explosive devices of the Programme Global Shield, led by the World Customs Organization and assisted by the International Criminal Police Organization (INTERPOL) and the United Nations Office on Drugs and Crime, to prevent the smuggling and illicit diversion of precursor chemicals that could be used to build improvised explosive devices, the network of regional and multilateral communities of action established by States to counter improvised explosive devices, the research on those devices undertaken by the United Nations Institute for Disarmament Research and the work undertaken by the Mine Action Service of the United Nations to mitigate the threat posed by those devices to civilians, United Nations staff, peacekeepers and humanitarian personnel, in particular in the field,

Taking note of the International Convention for the Suppression of Terrorist Bombings[9] and the United Nations Global Counter-Terrorism Strategy and the efforts undertaken to strengthen the capability of the United Nations system to assist Member States in implementing the Strategy, including through the establishment of the Office of Counter-Terrorism,[10]

General and complete disarmament: ethical imperatives for a nuclear-weapon-free world

Algeria, Angola, Austria, Brazil, Cabo Verde, Costa Rica, Ecuador, El Salvador, Ghana, Guatemala, Ireland, Kazakhstan, Kenya, Malawi, Mexico, Namibia, Nigeria, Panama, Peru, Samoa, Senegal, South Africa, Swaziland, Thailand, Trinidad and Tobago, Uruguay, Viet Nam and Zambia: draft resolution

Ethical imperatives for a nuclear-weapon-free world

The General Assembly,

Recalling its resolution 70/50 of 7 December 2015, adopted on the occasion of the seventieth anniversary of the United Nations, which was established to save succeeding generations from the untold suffering of the scourge of war, and its resolution 71/55 of 5 December 2016,

Recalling also that the United Nations emerged at the time of the immense trail of death and destruction resulting from the Second World War, 72 years ago,

Recalling further the noble principles of the Charter of the United Nations, which enjoin the international community, individually and collectively, to spare no effort in promoting the ethical imperative of "in larger freedom", so that all peoples may enjoy freedom from want, freedom from fear and the freedom to live in dignity,

Convinced that, given the catastrophic humanitarian consequences and risks associated with a nuclear weapon detonation, Member States have long envisaged nuclear disarmament and nuclear non-proliferation as urgent and interlinked ethical imperatives in achieving the objectives of the Charter, which is reflected in the first resolution, resolution 1 (I), adopted by the General Assembly on 24 January 1946, aimed at the elimination from national armaments of atomic weapons and of all other major weapons adaptable to mass destruction,

Acknowledging, in this connection, the ethical imperatives outlined in the provisions of its resolutions and reports and those of other related international initiatives on the catastrophic humanitarian consequences and risks posed by a nuclear weapon detonation, including the declaration that the use of nuclear weapons would cause indiscriminate suffering and as such is a violation of the

Charter and the laws of humanity and international law,[1] the condemnation of nuclear war as contrary to human conscience and a violation of the fundamental right to life,[2] the threat to the very survival of humankind posed by the existence of nuclear weapons,[3] the detrimental environmental effects of the use of nuclear weapons,[4] and the disquiet that was expressed at the continued spending on the development and maintenance of nuclear arsenals,[5]

Acknowledging also the preamble to and article VI of the Treaty on the Non-Proliferation of Nuclear Weapons[6] and the advisory opinion of the International Court of Justice on the legality of the threat or use of nuclear weapons,[7] in which the Court unanimously concluded that there exists an obligation to pursue in good faith and bring to a conclusion negotiations leading to nuclear disarmament in all its aspects under strict and effective international control,

Acknowledging further the United Nations Millennium Declaration,[8] in which Heads of State and Government resolved to strive for the elimination of weapons of mass destruction, particularly nuclear weapons, and to keep all options open for achieving that aim, including the possibility of convening an international conference to identify ways of eliminating nuclear dangers,

Concerned that, despite the long-standing recognition it has accorded to these ethical imperatives and while much effort has been directed to addressing nuclear non-proliferation, limited progress has been made in meeting the nuclear disarmament obligations required to achieve and maintain the nuclear-weapon-free world that the international community demands,

Disappointed at the continued absence of progress towards multilateral negotiations on nuclear disarmament in the Conference on Disarmament, despite unrelenting efforts of Member States towards this end,

Noting with satisfaction the increasing awareness, renewed attention and growing momentum that has been generated by Member States and the international community since 2010 regarding the catastrophic humanitarian consequences and risks associated with nuclear weapons, which underpin the ethical imperatives for nuclear disarmament and the urgency of achieving and maintaining a nuclear-weapon-free world, together with all related international initiatives,

Welcoming the adoption on 7 July 2017 of the Treaty on the Prohibition of Nuclear Weapons,[9] in which the ethical imperatives for nuclear disarmament are acknowledged,

Conscious of the absolute validity of multilateral diplomacy in relation to nuclear disarmament, and determined to promote multilateralism as essential to nuclear disarmament negotiations,

1. *Calls upon* all States to acknowledge the catastrophic humanitarian consequences and risks posed by a nuclear weapon detonation, whether by accident, miscalculation or design;

2. *Acknowledges* the ethical imperatives for nuclear disarmament and the urgency of achieving and maintaining a nuclear-weapon-free world, which is a "global public good of the highest order", serving both national and collective security interests;

3. *Declares*:

(a) The global threat posed by nuclear weapons must urgently be eliminated;

(b) Discussions, decisions and actions on nuclear weapons must focus on the effects of these weapons on human beings and the environment and must be guided by the unspeakable suffering and unacceptable harm that they cause;

(c) Greater attention must be given to the impact of a nuclear weapon detonation on women and the importance of their participation in discussions, decisions and actions on nuclear weapons;

(d) Nuclear weapons serve to undermine collective security, heighten the risk of nuclear catastrophe, aggravate international tension and make conflict more dangerous;

(e) Arguments in favour of the retention of nuclear weapons have a negative impact on the credibility of the nuclear disarmament and non-proliferation regime;

(f) The long-term plans for the modernization of nuclear weapons arsenals run contrary to commitments and obligations to nuclear disarmament and engender perceptions of the indefinite possession of these weapons;

(g) In a world where basic human needs have not yet been met, the vast resources allocated to the modernization of nuclear weapons arsenals could instead be redirected to meeting the Sustainable Development Goals;

(h) Given the humanitarian impact of nuclear weapons, it is inconceivable that any use of nuclear weapons, irrespective of the cause, would be compatible with the requirements of international humanitarian law or international law, or the laws of morality, or the dictates of public conscience;

(i) Given their indiscriminate nature and potential to annihilate humanity, nuclear weapons are inherently immoral;

4. *Notes* that all responsible States have a solemn duty to take decisions that serve to protect their people and each other from the ravages of a nuclear weapon detonation, and that the only way for States to do so is through the total elimination of nuclear weapons;

5. *Stresses* that all States share an ethical responsibility to act with urgency and determination, with the support of all relevant stakeholders, to take the effective measures, including legally binding measures, necessary to eliminate and prohibit all nuclear weapons, given their catastrophic humanitarian consequences and associated risks;

6. *Decides* to include in the provisional agenda of its seventy-third session, under the item entitled "General and complete disarmament", the sub-item entitled "Ethical imperatives for a nuclear-weapon-free world".

Noting the adoption of the programme of work for the 2009 session by the Conference on Disarmament on 29 May 2009,[10] after years of stalemate, and regretting that, despite substantive informal consultations in the working group on the "way ahead" on all items on the agenda of the Conference on Disarmament, as mandated by the decision of the Conference of 17 February 2017,[11] and intensive consultations by the relevant Presidents of the Conference with a view to agreeing on a programme of work,[12] the Conference did not succeed in reaching consensus on a programme of work for its 2017 session,

Welcoming the proposals submitted by the States members of the Conference on Disarmament that are members of the Group of 21 on the follow-up to the 2013 high-level meeting of the General Assembly on nuclear disarmament, pursuant to
